Statistics

The statistics can be queried easily. This gives you a complete picture of who has passed the tests. The system can also let you know who has attended fire drills, first aid courses, etc. It is also a useful tool for documenting the extent of training and fire drills when this is required by the authorities.

Diploma

If you answer a pre-specified percentage of the questions correctly then you pass the test, and a diploma with your name is automatically sent to the Fire Chief where you work.

BRANNTEST.NO

Branntest.no is designed and developed by Programvarehuset AS

One out of three Norwegian companies has inadequate fire safety training.

BRANNTEST.NO

The easiest basic fire safety training available

"In accordance with the Fire Safety Act § 19 and 25 both employees and employers are responsible for ensuring that fire safety training is carried out. It is the employer's responsibility to ensure that training takes place before employment starts, and it is the employee's responsibility to ensure the training is completed."

Many Norwegian businesses, both in the private and public sectors, have less than adequate systems for fire safety training. Branntest.no is a web based system that lets your employees complete a qualified basic fire safety training course in a short period of time - without having to attend a time consuming course that would also mean being away.

Branntest.no is a web based fire safety training system tailored to your building and work place that can be taken anywhere, anytime.

Branntest.no has developed a web based training system tailored to where you work. It can be completed anywhere, anytime. Branntest.no covers the theoretical aspects of fire safety and protection where you work. When you have completed the training, you will be better equipped to know what to do in the event of a fire. Practical training on how to use fire extinguishers will be provided by your local Fire Chief.

Branntest.no is easy to use:

• Go to www.branntest.no

• Login using your company's code

• Complete the training portion and each section's progress questions

• The training ends with a test

• If the answers are correct for pre-specified percentage of the questions then you pass the test

• A diploma with the participant's name is automatically sent to the appropriate Fire Chief / Manager

• The test takes about 20 minutes

Simple, easy and profitable for your company!
